

Remarks

The amendments to the specification are: at pg. 1 to delete the spurious word "from"; at pg. 2 to delete the inadvertent inclusion of a paragraph regarding subject matter which does not relate to this invention; at pg. 3 to add "is" for purposes of proper syntax. These amendments only correct certain errors of a clerical nature, and do not introduce new matter.

The amendments to the claims are: in claim 1 to add "a" for proper syntax; in claim 3 to delete the spurious "are provide in" and add "depression" after "frame" for providing proper antecedent basis for the latter.

Accordingly, entry of the amendments are deemed appropriate and such action is solicited.

Respectfully submitted,

Date: Apr 5, 2004
